I sent the Justice letter of 14 August to all of the IPC members. You will find notes on two or three of their telephone replies. The others have not come in yet. I talked to [redacted] at NSA and they confirmed that they were saying no. A copy of their letter arrived as I was leaving on vacation this afternoon. In spite of the "Playboylike" format and content, I resisted reading it and will leave it up to you. STATINTL
